

## Human Factors in Aviation Accidents

Estimates indicate that somewhere between 70 and 80 percent of all aviation accidents can be attributed, at least in part, to human error. We will have an in-depth discussion covering human factors as it relates to aviation accidents and look at a couple of case studies of accidents that have occurred in Arkansas. One of the speakers is retired Airline Captain R.L. Connor. Among many qualifications, Captain Connor was a former flight operations safety, accident and incident analyst.

**Directions:** From Little Rock, take Exit 78 at Caddo Valley and turn left onto Highway 7. This becomes 10th Street. Just before you turn into Caplinger's parking lot, you will pass Henderson State University's water fountain on your right and then drive under a pedestrian bridge over 10th Street. Turn left into Caplinger's parking lot just after the pedestrian bridge. From Texarkana, take Exit 73 and turn right onto Pine Street. Follow Pine Street to 10th Street and turn left. You will go straight through the stop light at Henderson Street just before turning right into Caplinger's parking lot.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
